MCHESTER BROS. & FRANK L. FELIX,  
EDITORS AND PROPRIETORS.

LARGE CIRCULATION

SUBSCRIPTION PRICE, \$1.00 PER YEAR

WEDNESDAY, JANUARY 16

CHAR. DUGEE, who murdered two policemen in Louisville last summer, is now having his second trial.

SENATOR INGALS took more or less than one to outstrip President Cleveland, and the President had self respect enough to invite him to his cabinet dinner.

The electoral vote for the State of Kentucky was counted at Frankfort Monday. John R. Colyer, of the Franklin Favorite, was elected messenger to the seat of the Washington. Luck will now and then strike a newspaper man.

The Owensboro Journal of Monday says:

"The Journal has pretty ample information that Fayette's real Gem, Lexington to Bardstown and Hartfort, is getting in better shape and is likely to be built. It would give Hartfort connection in every direction."

LOUISVILLE is tired of waiting for winter to appear, and has started her "cold factory." The dry "cold" is made from inhydrous ammonia, and can be conducted all over the city in pipes. The first test was made last Saturday and proved satisfactory.

A BUSTLE factory has been compelled to shut down at Bridgeport, Conn., on account of Mrs. Cleveland discarding this once popular lamp, and its immediate dismissal from stylish backs. Old newspapers are still for sale at the HERALD Office at 10c per hundred.

The Owensboro Messenger is authority for the statement that Mr. Rice, President of the H. & L. L. said that the road would be built from Evansville to Chittanooga, whether Bowling Green would stand aid or not. That must be true, but a road from Evansville to Chittanooga is not compelled to go through Bowling Green, and the community that think they will get the road may way, may find themselves sadly mistaken.

The Owensboro Messenger takes us to task for daring to tell our people that Owensboro was trying to defeat our Bowling Green and Henderson railroads. The railroads are the railroads in our subsequent development project. The Messenger on Thursday advocated the triangular route by Leitchfield, Friday a rail road, a road through Hartford, and Saturday it had switched back to the Falls of Rough project. The simple truth is, Owensboro is trying to keep the Henderson road from getting any help from Warren county, and the only proposition the Owensboro party discussed while in Bowling Green, was from Bowling Green to Owensboro over Leitchfield. We don't like the idea of Owensboro for bonding, for another one as she seems capable of doing, but we don't care to be censured for doing the same thing, and we haven't changed our minds one bit since our last home.

THE tobacco warehouses, buyers and inspectors of Louisville have formed an organization to carry on for the purpose of advancing the tobacco interests. It is the first, but one important factor of the problem, we left out of this new organization. If the tobacco interests are to be advanced by this organization, why was the tobacco grower left out? If there is any class of men who might be interested in the advancement of the tobacco interests, it certainly is the tobacco grower. The farmers, especially those who raise tobacco, should keep posted as to the crooks and turns of the market. There is a more on foot to prevent the planting of the present crop, but we doubt the efficacy of this move. The best plan seems to be for our farmers to plant a less acreage and make a better quality, and thereby command a better price.

OLD HARTFORD and Ohio county at last sees the way out of the woods. She has a dual railroad scheme, which a committee of citizens call fair and equitable. We have roads in the north-eastern portion of the county, and one running through the county, East and West, and with two more forming a big X through the center of the county, what town or county can be prouder? Owensboro and Daviess have the assurance to sympathize with Ireland, to express misapprehensions for the safety of the "Czar of Russia, to send a delegation of their far-sighted sages to Bowling Green for the purpose of showing the pretensions that they can build two railroads at right angles by which they can secure the patronage of Falls of Rough, a thriving town of a man and a dog, a blacksmiths shop, a horse-rack and a

goods box, and thereby grow prominent in all nations of the globe. With our timber, agricultural products, coal and iron, we have a heavy draw on space, the railroad propositions, and orders of court may come in full, so that what is wanted of them, and now we will proceed to give a few facts concerning the same. We are compelled to take our statistics from last year's assessment since the report for the present year has not yet been made. The Henderson State Line Co., asks Hartfort Magisterial District to contribute \$100,000, and Daviess Magisterial District is asked to take stock to the amount of \$100,000 and Cromwell Magisterial District \$11,000. The total asked from the three districts is \$71,700. The Louisville, Harlanburg & Western wants the Harford and Hartfort Magisterial Districts to take even \$70,000 stock in their enterprises. It will be seen from the propositions, that the stock is to be paid for in bonds, and that no bond shall be issued to said companies until the road is built and trains running easily through the mountains taking stock. In this regard, both companies are to be equal, requiring since the roads are not built, the people will have no tax to pay. The first assessment shows that the Hartfort District has \$476,020 in taxable property, Cromwell \$239,300, West Louisville \$821,776, and Rosine \$352,014. For the county the non-resident list is \$24,000. Colored list \$22,677. Property tax list \$180,837. Sheriff's list \$42,435 and the C. & O. Railroad assessment \$247,558.

The proposed line of the Henderson State Line Railroad, on the 1st of January, 1880, will be the great line between Chicago and the South, and the other gives competition to Louisville.

8. The increase in property in the county, diminishes the rate of taxation.

9. Because the people are saving.

10. Because the east end of coal and iron ore, untouched by the C. & O. are waiting for an outlet.

For the Road.

Green River, Ohio.

We have had many farmers in the county who are now forced to wear out their teams, wagons, etc., in hauling coal and iron ore, same as we have seen in the other districts. The coal and iron ore, untouched by the C. & O. are waiting for an outlet.

11. Because the east end of coal and iron ore, untouched by the C. & O. are waiting for an outlet.

## WE SUPPOSE THAT

There are more people living on the earth than there are hairs upon the head of any human being. Then it follows as a necessary consequence that there are two hairs, at least, in every person who have the same number of hairs upon their heads. A meeting will be given to any school boy or girl who shall hand into her teacher the first document of this fact, after January 1st. Let's hear from Dr. Alexander's big school.

But the above is not what we wished to say, and was only placed at the head of that column to attract attention to something more important, which is that

### We Have Taken Account of Stock

And summed up our last year's business, and find that it was far above that of any preceding year, and we feel that we can afford to liberal to our friends, and in order to show our appreciation, and also to run off many kinds of goods, we are offering our entire stock of

### Ladies Long Wraps, Ladies Jackets,

AT GREATLY REDUCED PRICES, MANY OF THEM

AT LESS THAN COST

—IN—

### Ladies Hats and Dress Bonnets

We invite to take my price that you may offer for them, providing it be within the bounds of reason.

WE HAVE PLATED A—

### BARGAIN COUNTER

Near the Front Door of Our Store

Upon which we have thrown a lot of Misses' Fins' Shoes to be sold for 50¢ a pair. A lot of Ladies' Fine Shoes costing originally from \$1.25 to \$2.50 which will go for the latter for your choice. Ladies and Gents Hats at one fourth their original cost, and many other goods that must be sold off we get no more than ten cents on the dollar for them.

**The Biggest Thing We Have Cotton Lately is a Heavy Men's Stock.**

Designed to be a company bargain to any owner of "Wear-For-Weary" stock. We warrant its wearing qualities to be equal to any three or four dollar shoe in the market, and will return the money on every pair that does not give satisfaction. It is made in good style and of first-class material in every respect. We offer it at ONE DOLLAR AND A HALF A PAIR. You should not fail to see it.

WE WILL COMMENCE A—

### Clearance Pants Sale!

ON SATURDAY NEXT!

Which will produce as great a boom as our Overcoat Sale, which is still in progress. We will continue to push Big Bargains to the front until our winter stock is gone.
